Digital & Drawing with Dot!

Dot is tech savvy but still loves being outdoors! With an adult, go outside and take a picture. It can be of anything you like! Go inside and look at the photo closely. In the space below, use the photo as inspiration to draw your own picture. Be creative! Should trees have purple leaves instead of green? Should things be larger or smaller? You decide! Once you are done, hang the two pictures side by side for all to enjoy!
